DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kleinbongartz (6123326).

Kleinbongartz discloses a trimming tool having a first and second clamp arms with faces (44&5), a means with rotatable axis (7), and a means for urging clamp arms (i0).

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Zborschil (5427364).

Zborschil discloses a trimming tool having a first and second clamp arms with faces ((4&3), a means with rotatable axis (6), and a means for urging clamp arms (5).

4. Claims 1- 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hewson (4253649).

Hewson discloses a trimming tool having a first and second clamp arms with faces (47), a means with rotatable axis (6), and a pair of right angular mounting bars (41).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 3- 13 and 15-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hewson (4253649) in view of Carter (1587820).

- a. Hewson is discussed above.
- b. Hewson does not disclose a means for adjusting the arms toward and away from each other.
- c. Carter discloses a trim tool having arms (5&12) with a means for adjusting the arms towards and away from each other which allows the clamp additional degrees of adjustment.
- d. It would have been obvious to one of ordinary skill in the art would have modified the Hewson device by providing an adjustment means as taught by Carter which allows the clamp additional degrees of adjustment.

Response to Arguments

7. **Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.**

- e. The last amendment was considered. New rejection had to be applied in view of the 112 corrections and comments. Art has been applied which better address all of the limitations being claimed by applicant.

- f. The old rejections on claim one remain because intended use does not overcome a 102 rejection.
